Introduction

The A–Z of Correct English is a reference book which has been written for the student and the general reader. It aims to tackle the basic questions about spelling, punctuation, grammar and word usage that the student and the general reader are likely to ask.

Throughout the book there are clear explanations, and exemplar sentences where they are needed. When it's helpful to draw attention to spelling rules and patterns, these are given so that the reader is further empowered to deal with hundreds of related words. The aim always has been to make the reader more confident and increasingly self-reliant.

This is a fast-track reference book. It is not a dictionary although, like a dictionary, it is arranged alphabetically. It concentrates on problem areas; it anticipates difficulties; it invites cross-references. By exploring punctuation, for example, and paragraphing, it goes far beyond a dictionary's terms of reference. It is not intended to replace a dictionary; it rather supplements it.

Once, in an evening class, one of my adult students said, 'If there's a right way to spell a word, I want to know it.' On another occasion, at the end of a punctuation session on possessive apostrophes, a college student said rather angrily, 'Why wasn't I told this years ago?'

This book has been written to answer all the questions that my students over the years have needed to ask. I hope all who now use it will have their questions answered also and enjoy the confidence and the mastery that this will bring.

How to use this book

For ease of reference, all the entries in this book have been listed alphabetically rather than being divided into separate spelling, usage, punctuation and grammar sections.

You will therefore find **hypocrisy** following **hyphens**; **paragraphing** following **paraffin**; **who or whom?** following **whiskey or whisky?**; and so on.

WANT TO CHECK A SPELLING?

Cross-referencing will help you locate words with tricky initial letters.

aquaint

Wrong spelling. See **ACQUAINT**.

Plural words are given alongside singular nouns, with cross-referencing to relevant rules and patterns.

knife (singular)

knives (plural). See **PLURALS** (v).

There is also a general section on **plurals** and another on **foreign plurals**.

If it's the complication of adding an ending that is causing you trouble, you will find some words listed with a useful cross-reference.

dining or dinning? dine + ing = dining (as in dining room)

din + ing = dinning (noise dinning in ears)

See **ADDING ENDINGS** (i) and (ii).

There are individual entries for confusing endings like **-able/-ible**; **-ance,-ant/-ence,-ent**; **-cal/-cle**; **-ise or -ize?** and for confusing beginnings like **ante-/anti-**; **for-/fore-**; **hyper-/hypo-**; **inter-/intra-** and many others.

A

abandon	abandoned, abandoning, abandonment (<i>not</i> -bb-)
abattoir	(<i>not</i> -bb-)
abbreviate	abbreviated, abbreviating, abbreviation (<i>not</i> -b-)
abbreviations	See CONTRACTIONS.
-able/-ible	<p>Adjectives ending in -able or -ible can be difficult to spell because both endings sound identical. You'll always need to be on guard with these words and check each word individually when you are in doubt, but here are some useful guidelines:</p> <ul style="list-style-type: none">(i) Generally use -able when the companion word ends in -ation: abominable, abomination irritable, irritation(ii) Generally use -ible when the companion word ends in -ion: comprehensible, comprehension digestible, digestion(iii) Use -able after hard c and hard g: practicable (c sounds like k) navigable (hard g)(iv) Use -ible after soft c and soft g: forcible (c sounds like s) legible (g sounds like j) <p>See also ADDING ENDINGS (ii); SOFT C AND SOFT G.</p>

ABRIDGEMENT/ABRIDGMENT

abridgement/ abridgment	Both spellings are correct. Use either but be consistent within one piece of writing.
abscess	This is a favourite word in spelling quizzes. (<i>not</i> absess or abcess)
absence	absent (<i>not</i> absc-)
absolute	absolutely (<i>not</i> absoloute, absolutely)
absorb	absorption. Notice how b changes to p here.
abstract nouns	<i>See</i> NOUNS.
accept or except?	We ACCEPT your apology. Everybody was there EXCEPT Stephen.
accessary or accessory?	If you want to preserve the traditional distinction in meaning between these two words, use ACCESSARY to refer to someone associated with a crime and ACCESSORY to refer to something that is added (a fashion accessory or car accessories). However, the distinction has now become blurred and it is perfectly acceptable to use one spelling to cover both meanings. Of the two, accessory is the more widely used, but both are correct.
accessible	(<i>not</i> -able)
accidentally	The adverb is formed by adding -ly to accidental. (<i>not</i> accidently)
accommodation	This is a favourite word in spelling quizzes and is frequently seen misspelt on painted signs. (<i>not</i> accomodation or accommadation)
accross	Wrong spelling. See ACROSS .
accumulate	(<i>not</i> -mm-)

ADDING ENDINGS

achieve	achieved, achieving, achievement (<i>not</i> -ei-) See also ADDING ENDINGS (ii.); EI/IE SPELLING RULE .
acknowledgement/ acknowledgment	Both spellings are correct but be consistent within one piece of writing.
acquaint	acquainted (<i>not</i> aq-)
acquaintance	(<i>not</i> -ence)
acquiesce	acquiesced, acquiescing (<i>not</i> aq-)
acquiescence	(<i>not</i> -ance)
acquire	acquired, acquiring, acquisition (<i>not</i> aq-)
acreage	<i>Note</i> that there are three syllables here. (<i>not</i> acrage)
across	(<i>not</i> accross)
adapter or adaptor?	Traditional usage would distinguish between these two words and reserve -er for the person (an adapter of novels, for instance) and -or for the piece of electrical equipment. However, the distinction has become very blurred and the two spellings are considered by many authorities to be interchangeable. Use either for both meanings but be consistent within a single piece of writing.
addendum (singular)	addenda (plural) See FOREIGN PLURALS .
adding endings	Usually endings (suffixes) can be added to base words without any complications. You just add them and that is that! e.g. iron + ing = ironing steam + er = steamer list + less = listless However, there are four groups of words which need especial care. Fortunately, there are some straightforward rules

ADDING ENDINGS

which save your learning thousands of words individually.

(i) *The 1-1-1 rule*

This rule applies to:

words of ONE syllable
ending with ONE consonant
preceded by ONE vowel
e.g. drop, flat, sun, win.

When you add an ending beginning with a consonant to a 1-1-1 word, there is no change to the base word:

drop + let = droplet
flat + ly = flatly
win + some = winsome

When you add an ending beginning with a vowel to a 1-1-1 word, you double the final letter of the base word:

drop + ed = dropped
flat + est = flattest
win + ing = winning
sun + *y = sunny

*y counts as a vowel when it sounds like i or e.

See **VOWELS**.

Treat qu as one letter:

quit + ing = quitting
quip + ed = quipped

Don't double final w and x. They would look very odd and so we have correctly:

tax + ing = taxing
paw + ed = pawed

(ii) *The magic -e rule*

This rule applies to all words ending

ADDING ENDINGS

with a silent -e.

e.g. hope, care, achieve, sincere, separate.

When you add an ending beginning with a consonant, keep the -e:

hope + ful	= hopeful
care + less	= careless
sincere + ly	= sincerely
separate + ly	= separately
achieve + ment	= achievement

When you add an ending beginning with a vowel, drop the -e:

hope + ing	= hoping
care + er	= carer
sincere + ity	= sincerity
separate + ion	= separation
achieve + ed	= achieved

Do, however, keep the -e in words like singeing (different from singing) and dyeing (different from dying) and whenever you need to keep the identity of the base word clear (e.g. shoeing, canoeing).

Do remember to keep the -e with soft c and soft g words. It's the e that keeps them soft (courageous, traceable). (See **SOFT C AND SOFT G**.)

Don't keep the -e with these eight exceptions to the rule: truly, duly, ninth, argument, wholly, awful, whilst, wisdom.

(iii) -y rule

This rule applies to all words ending in -y. Look at the letter before the -y in the base word.

It doesn't matter at all what kind of ending you are adding. When you add an ending to a word ending in a

ADDING ENDINGS

vowel + y, keep the y:

portray + ed = portrayed
employ + ment = employment

When you add an ending to a word ending in a consonant + y, change the y to i:

try + al = trial
empty + er = emptier
pity + less = pitiless
lazy + ness = laziness

Do keep the y when adding -ing. Two i's together would look very odd, despite our two words ski-ing and taxi-ing.

try + ing = trying
empty + ing = emptying

Don't apply the rule in these fourteen cases: daily, gaily, gaiety, laid, paid, said, slain, babyhood, shyly, shyness, dryness, slyness, wryly, wryness.

(iv) *The 2-1-1 rule*

This rule applies to:

words of TWO syllables
ending with ONE consonant
preceded by ONE vowel.

With this rule, it all depends on which syllable of the word is stressed. The 2-1-1 words below are stressed on the first syllable, and both vowel and consonant endings are added without any complications:

gossip gossiping
target targeted
limit limitless
eager eagerness

But note that kidnap, outfit, worship, always double their final letter:

ADDING ENDINGS

kidnapped, outfitter, worshipping

Take care with 2-1-1 words which are stressed on the second syllable. There is no change when you add a consonant ending:

forget + ful = forgetful
equip + ment = equipment

Double the final consonant of the base word when you add a vowel ending:

forget + ing = forgetting
equip + ed = equipped
forbid + en = forbidden
begin + er = beginner

This rule is really valuable but you must be aware of some exceptions:

- 2-1-1 words ending in -l seem to have a rule all of their own. Whether the stress is on the first or the second syllable, there is no change when a consonant ending is added:

quarrel + some = quarrelsome
instal + ment = instalment

Double the -l when adding a vowel ending:

quarrel + ing = quarrelling
instal + ed = installed
excel + ent = excellent

- Notice how the change of stress in these words affects the spelling:

confer	conferred	conferring	conference
defer	deferred	deferring	deference
infer	inferred	inferring	inference
prefer	preferred	preferring	preference
refer	referred	referring	reference
transfer	transferred	transferring	transference

-CAL/-CLE; -FUL,-LY.

ADDRESS

address	(<i>not</i> adr-)
adieu (singular)	adieux or adieux (plural) See FOREIGN PLURALS .
adrenalin/adrenaline	Both spellings are correct.
adress	Wrong spelling. See ADDRESS .
advantageous	advantage + ous Keep the -e in this instance. See SOFT C AND SOFT G .
adverse or averse?	These two words have different meanings. The ferries were cancelled owing to ADVERSE weather conditions. (= unfavourable) She is not AVERSE to publicity. (= opposed)
advertisement	advertise + ment See ADDING ENDINGS (ii).
advice or advise?	My ADVICE is to forget all about it. (noun = recommendation) What would you ADVISE me to do? (verb = recommend)
adviser or advisor?	Adviser is the traditionally correct British spelling. Advisor is more common in American English.
advisory	(<i>not</i> -ery)
aerial	Use the same spelling for the noun (a television AERIAL) and the adjective (an AERIAL photograph).
affect or effect?	Use these exemplar sentences as a guide: Heavy drinking will AFFECT your liver. (verb) The EFFECT on her health was immediate. (noun) The new manager plans to EFFECT sweeping changes. (verb = to bring about)

afraid	(<i>not</i> affraid)
ageing or aging?	Both spellings are correct but many would prefer ageing as it keeps the identity of the base word (age) more easily recognised. See ADDING ENDINGS (ii).
aggravate	Strictly speaking, aggravate means to make worse. His rudeness AGGRAVATED an already explosive situation. It is, however, widely used in the sense of to irritate or to annoy. Be aware that some authorities would regard this second usage as incorrect.
aggressive	(<i>not</i> agr-)
agree to/agree with	The choice of preposition alters the meaning of the verb: I AGREED TO do what he advised. I AGREED TO all the conditions. I AGREED WITH all they said. See PREPOSITIONS .
agreeable	(<i>not</i> agreeable)
agreement	For grammatical agreement, see SINGULAR OR PLURAL? .
agressive	Wrong spelling. See AGGRESSIVE .
alga (singular)	algae (plural) See FOREIGN PLURALS .
allege	(<i>not</i> -dge)
alley or ally?	An ALLEY is a little lane. An ALLY is a friend. alley (singular), alleys (plural) ally (singular), allies (plural) See PLURALS (iii).

ALL MOST OR ALMOST?

all most or almost?

There is a difference in meaning. Use these exemplar sentences as a guide:

They were **ALL** (= everyone) **MOST** kind.
The child was **ALMOST** (= nearly) asleep.

allowed or aloud?

There is a difference in meaning. Use these exemplar sentences as a guide:

Are we **ALLOWED** (= permitted) to smoke in here?

I was just thinking **ALOUD** (= out loud).

all ready or already?

There is a difference in meaning. Use these exemplar sentences as a guide:

We are **ALL** (= everyone) **READY**.

It is **ALL** (= everything) **READY**.

She was **ALREADY** dead (= by then).

all right or alright?

Traditional usage would consider **ALL RIGHT** to be correct and **ALRIGHT** to be incorrect. However, the use of 'alright' is so widespread that some would see it as acceptable although the majority of educated users would take care to avoid it.

all so or also?

There is a difference in meaning. Use these exemplar sentences as a guide:

You are **ALL** (= everyone) **SO** kind.

You are **ALSO** (= in addition) generous.

all together or altogether?

There is a difference in meaning. Use these exemplar sentences as a guide:

They were **ALL** (= everybody) huddled **TOGETHER** for warmth.

His situation is **ALTOGETHER** (= totally) different from yours.

allude or elude?

There is a difference in meaning.

ALLUDE means to refer to indirectly.

ELUDE means to evade capture or recall.

ALTERNATIVES

**allusion, delusion
or illusion?**

There is a difference in meaning.
An **ALLUSION** is an indirect reference.
A **DELUSION** is a false belief (often associated with a mental disorder).
An **ILLUSION** is a deceptive appearance.

all ways or always?

There is a difference in meaning.
These three routes are **ALL** (= each of them) **WAYS** into town.
She **ALWAYS** (= at all times) tells the truth.

almost

See **ALL MOST OR ALMOST?**.

a lot

Write as two words, not as one. Bear in mind that this construction is slang and not to be used in a formal context.

aloud

See **ALLOWED OR ALOUD?**.

already

See **ALL READY OR ALREADY?**.

altar or alter?

There is a difference in meaning.
The bride and groom stood solemnly before the **ALTAR**.
Do you wish to **ALTER** (= change) the arrangements?

**alternate or
alternative?**

We visit our grandparents on **ALTERNATE** Saturdays. (= every other Saturday)
I **ALTERNATE** between hope and despair. (= have each mood in turn)
An **ALTERNATIVE** plan would be to go by boat. (= another possibility)
The **ALTERNATIVES** are simple: work or go hungry. (= two choices)
Strictly speaking, the choice can be between only two alternatives (one choice or the other).

alternatives

However, the word is frequently used more loosely and this precise definition is becoming lost.

ALTOGETHER

altogether

See **ALL TOGETHER OR ALTOGETHER?**.

Alzheimer's disease

ambiguity

Always try to anticipate any possible confusion on the part of your reader. Check that you have made your meaning absolutely clear.

- (i) Bear in mind that pronouns can be very vague. Consider this sentence:

My brother told his friend that **HE** had won first prize in the local photographic exhibition.

Who is 'he', my brother or his friend? Rewrite more clearly:

- (a) My brother congratulated his friend on winning first prize in the local photographic exhibition.
(b) My brother, delighted to have won first prize in the local photographic exhibition, told his friend.

The other possibility is rather clumsy but is otherwise clear:

- (c) My brother told his friend that he (his friend) had won first prize.
(d) My brother told his friend that he (my brother) had won first prize.
- (ii) Position the adverb **ONLY** with great care. It will refer to the word nearest to it, usually the word following. This may not be the meaning you intended. See how crucial to the meaning the position of 'only' can be:
- ONLY** Sean eats fish on Fridays.
(= No one else but Sean eats fish on Fridays.)

Sean **ONLY** eats fish on Fridays.
(= Sean does nothing else to the fish on Fridays but eat it. He doesn't buy it, cook it, look at it, smell it . . .)

Sean eats **ONLY** fish on Fridays.
(= Sean eats nothing but fish on Fridays.)

Sean eats fish **ONLY** on Fridays.
Sean eats fish on Fridays **ONLY**.
(= Sean eats fish on this one day in the week and never on any other.)

- (iii) Take care with the positioning of **BADLY**.

This room needs cleaning **BADLY**.

Does it? Or does it not need cleaning well? Rewrite like this:

This room **BADLY** needs cleaning.

- (iv) Beware of causing initial bewilderment by not introducing a comma to indicate a pause.

The shabby little riverside café was empty and full of wasps and flies.

Empty and full?

The shabby little riverside café was empty, and full of wasps and flies.

See **COMMAS** (ix).

- (v) Avoid the danger of writing nonsense!

DRIVING slowly along the road, **THE CASTLE** dominated the landscape.
The castle is driving?

Rewrite:

As we drove slowly along the road, we saw how the castle dominated the landscape.

AMEND OR EMEND?

COOKED slowly, the **FAMILY** will enjoy the cheaper cuts of meat.

Rewrite:

If the cheaper cuts of meat are cooked slowly, the family will enjoy them.

See **PARTICIPLES**.

- (vi) Make sure the descriptive details describe the right noun!

For sale: 1995 Peugeot 205 – one owner with power-assisted steering.

Rewrite:

For sale: 1995 Peugeot 205 with power-assisted steering – one owner.

amend or emend?

Both words mean 'to make changes in order to improve'. Use **AMEND** or **EMEND** when referring to the correction of written or printed text. Use **AMEND** in a wider context such as **AMENDING** the law or **AMENDING** behaviour.

ammount

Wrong spelling. See **AMOUNT**.

among

(*not* amoung)

among/amongst

Either form can be used.

among or between?

Use **BETWEEN** when something is shared by two people. Use **AMONG** when it is shared by three or more.

Share the sweets **BETWEEN** the two of you.

Share the sweets **AMONG** yourselves.

However, **BETWEEN** is used with numbers larger than two when it means an exact geographical location or when it refers to relationships.

	<p>Sardinia lies BETWEEN Spain, Algeria, Corsica and Italy.</p> <p>It will take a long time before the rift BETWEEN the five main parties heals.</p>
amoral or immoral?	<p>There is a difference in meaning.</p> <p>AMORAL means not being governed by moral laws, acting outside them. (note -m-)</p> <p>IMMORAL means breaking the moral laws. (note -mm-)</p>
amoung	<p>Wrong spelling. See AMONG.</p>
amount	<p>(<i>not</i> ammount)</p>
amount or number?	<p>AMOUNT is used with non-count nouns: a small AMOUNT of sugar; a surprising AMOUNT of gossip.</p> <p>NUMBER is used with plural nouns: a NUMBER of mistakes; a NUMBER of reasons.</p>
analyse	<p>(<i>not</i> -ize as in American English)</p>
analysis (singular)	<p>analyses (plural) See FOREIGN PLURALS.</p>
-ance,-ant/-ence,-ent	<p>Words with these endings are difficult to spell and you'll always need to be on your guard with them. Check each word individually when in doubt, but here are some useful guidelines:</p> <ul style="list-style-type: none">(i) People are generally -ant: attendant, lieutenant, occupant, sergeant, tenant (but there are exceptions like superintendent, president, resident . . .).(ii) Use -ance, -ant, where the companion word ends in -ation: dominance, dominant, domination, variance, variant, variation.

AND/BUT

- (iii) Use -ence, -ent after qu:
consequence, consequent,
eloquence, eloquent.
- (iv) Use -ance, -ant after hard c or hard g:
significance, significant (c sounds like k)
elegance, elegant (hard g)
- (v) Use -ence, -ent after soft c or soft g:
innocence, innocent (c sounds like s)
intelligent, intelligence (g sounds like j)

See **SOFT C AND SOFT G**.

and/but

Many of us have been taught never to begin a sentence with **AND** or **BUT**. Generally speaking this is good advice. Both words are conjunctions and will therefore be busy joining words within the sentence:

I should love to come **AND** I look forward to the party very much.

They wanted to come **BUT** sadly they had to visit a friend in hospital some miles away.

However, there are some occasions when you may need the extra emphasis that starting a new sentence with **AND** or **BUT** would give. If you have a good reason to break the rules, do so!

anxiety

Wrong spelling. See **ANXIETY**.

anxious

Wrong spelling. See **ANXIOUS**.

annex or annexe?

To **ANNEX** is to take possession of a country or part of a country.

An **ANNEX** is another word for an appendix in an official document.

An **ANNEXE** is a building added to the main building.

annoint

Wrong spelling. See **ANOINT**.

announce

announced, announcing, announcer, announcement

anoy	Wrong spelling. See ANNOY .
ante-/anti-	ANTE- means before. antenatal = before birth ANTI- means against. antifreeze = against freezing
antecedent	This means earlier in time or an ancestor. (<i>not</i> anti-) See ANTE-/ANTI- .
antediluvian	This means very old-fashioned and primitive, literally 'before the flood of Noah'. (<i>not</i> anti-) See ANTE-/ANTI- .
antenna	This word has two plurals, each used in a different sense: Use ANTENNAE to refer to insects. Use ANTENNAS to refer to television aerials. See FOREIGN PLURALS .
anticlimax	(<i>not</i> ante-) See ANTE-/ANTI- .
antirrhinum	(<i>not</i> -rh-)

anxious	(<i>not</i> ang-)
apologise/apologize	Both spellings are correct. (<i>not</i> -pp)
apology	apologies (plural) See PLURALS (iii).

APON

apon

Wrong spelling. See UPON.

apostrophes

(i) Apostrophes can be used to show that letters have been omitted:

► *in contractions*

► *in poetry*

o'er vales and hills
where'er you walk

► *in dialect*

'Ere's, 'Arry

► *in retail*

pick 'n' mix
salt 'n' vinegar

(ii) Apostrophes can be used to show ownership. Follow these simple guidelines and you'll never put the apostrophe in the wrong place.

Singular nouns or 'owners'

The tail of the dog

The dog's tail

Who 'owns' the tail?	the dog
Put the apostrophe	
after the owner.	the dog'
Add -s.	the dog's
Add what is 'owned'.	the dog's tail

The smile of the princess

The princess's smile

Who 'owns' the smile?	the princess
Put the apostrophe	
after the owner.	the princess'
Add -s.	the princess's
Add what is 'owned'.	the princess's
	smile

With proper names ending in -s, you have a choice, depending upon how the name is pronounced.

Keats' poetry or Keats's poetry

But St James's Square, London, SW1

St James's (three syllables)

Plural nouns or 'owners'

Don't worry about whether you use 's or s' in the plural. It will sort itself out.

The tails of the dogs

The dogs' tails

Who 'owns' the tails? the dogs

Put the apostrophe

after the owners. the dogs'

Add -s if there isn't one. (no need here)

Add what is 'owned' the dogs' tails

The laughter of the women

The women's laughter

Who 'owns' the laughter? the women

Put the apostrophe

after the owners. the women'

Add -s if there isn't one. the women's

Add what is 'owned'. the women's
 laughter

And so, when reading, you will be able to distinguish singular and plural 'owners'.

The princess's suitors.

The princesses' suitors.

The 'owner' is the word before the apostrophe.

(iii) Apostrophes are also used in condensed expressions of time.

The work of a moment.

borrow or lend?	May I BORROW your pen? (= use your pen temporarily) Please LEND me your pen. (= pass it to me and allow me to use it)

BOTH...AND

both... and

Take care with the positioning of each half of this paired construction. Each must introduce grammatically similar things:

He is **BOTH** clever **AND** hardworking.
(*not*: He both is clever and hardworking!)

He **BOTH** paints **AND** sculpts.
He bought **BOTH** the gardening tools
AND the DIY kit.

Notice, however, the ambiguity in the last example. It could mean that there were just two gardening tools and he bought both of them. In the case of possible confusion, always replace:

He bought the gardening tools and also the DIY kit.

He bought the two gardening tools and also the DIY kit.

He bought both of the gardening tools and also the DIY kit.

bought or brought?

BOUGHT is the past tense of to buy.

She **BOUGHT** eggs, bacon and bread.

BROUGHT is the past tense of to bring.

They **BROUGHT** their books home.

bouncy

(*not* -ey)

See **ADDING ENDINGS** (ii).

brackets

Round brackets enclose additional information which the writer wants to keep separate from the main body of the sentence.

Jane Austen (born in 1775) died in Winchester.

My neighbour (have you met her?) has won £250,000.

Notice how sentences in brackets are not fully punctuated.

They don't begin with a capital letter or have a full stop at the end if they occur within another sentence as in the example above. They do, however, have a question mark or an exclamation mark, if appropriate.

Square brackets indicate the material has been added to the original by another writer:

When I [Hilaire Belloc] am dead, I hope it may be said:

'His sins were scarlet, but his books were read.'

breath or breathe?

BREATH is the noun, and rhymes with 'death'.

callous or callus?

CALLOUS means cruel, insensitive, not caring about how others feel.

CALLUS means a hard patch of skin or tissue.

Interestingly, skin may be **CALLOUSED** (made hard) or **CALLUSED** (having calluses).

can or may?

Strictly speaking, **CAN** means 'being able' and **MAY** means 'having permission'. It is best to preserve this distinction in formal contexts. However, informally, **CAN** is used to cover both meanings:

CANING OR CANNING?

	You CAN go now (= are permitted).
caning or canning?	cane + ing = caning CANING is now banned in all schools. Can + ing = canning The CANNING factory is closing down. (See ADDING ENDINGS (i) and (ii).)

religious festivals (Easter, Diwali)
firms (Express Cleaners)
organisations (the British Broadcasting Corporation)
historical periods (the Renaissance)
(the Neolithic Period)
days of the week (Monday)
months of the year (September)
but not usually the
seasons.

Note these adjectives derived from proper nouns also have a capital letter:

a Jewish festival; a German poet

However, the capital is dropped when the connection with the proper noun becomes lost:

venetian blinds, french windows

Note also that titles are capitalised only when part of a proper noun:

Bishop Christopher Budd, otherwise the bishop

Aunt Gladys, otherwise my aunt

Captain Llewellyn, otherwise the captain

- ▶ to begin lines of poetry (although some poets like e.e. cummings dispense with this convention)
- ▶ to mark the first word and the subsequent key words in titles:

The Taming of the Shrew

An Old Wives' Tale

- ▶ for emphasis:
And then – BANG!
- ▶ for some acronyms and initialisms:

CAPITAL PUNISHMENT OR CORPORAL PUNISHMENT?

NATO
UNESCO
CAFOD
OXFAM

COLONS

colons

- (i) Colons can introduce a list:

Get your ingredients together:
flour, sugar, dried fruit, butter and
milk.

Note that a summing-up word should
always precede the colon (here
'ingredients').

- (ii) Colons can precede an explanation or
amplification of what has gone before:

The teacher was elated: at last the
pupils were gaining in confidence.

Note that what precedes the colon
must always be able to stand
on its own grammatically. It must be
a sentence in its own right.

- (iii) Colons can introduce dialogue in a
play:

Henry (with some embarrassment): It's
all my own fault.

- (iv) Colons can be used instead of a
comma to introduce direct speech:

Henry said, with some embarrassment:
'It's all my own fault.'

- (v) Colons can introduce quotations:

Donne closes the poem with the
moving tribute:

'Thy firmness makes my circle just
And makes me end where I began.'

- (vi) Colons can introduce examples as in
this reference book.

comission

Wrong spelling. See **COMMISSION**.

commands

- (i) Direct commands, if expressed emphatically, require an exclamation mark:

Stop, thief!

Put your hands up!

Stop talking!

If expressed calmly and conversationally, however, a full stop is sufficient:

Just wait there a moment and I'll be with you.

Tell me your story once again.

- (ii) Reported commands (indirect commands) never need an exclamation mark because, when they are reported, they become statements.

He ordered the thief to stop.

She told him to put his hands up.

The teacher yelled at the class to stop talking.

commas

Commas are so widely misused that it is worth discussing their function in some detail. First, let us make it very clear when commas *cannot* be used.

- (a) A comma should never divide a subject from its verb. The two go together:

My parents, had very strict views. ⑥

My parents had very strict views. ②

COMMAS

Take extra care with compound subjects:

The grandparents, the parents, and the children, were in some ways to blame. ⑥

The grandparents, the parents, and the children were in some ways to blame. ②

- (b) Commas should never be used in an attempt to string sentences together. Sentences must be either properly joined (and commas don't have this function) or clearly separated by full stops, question marks or exclamation marks.

Commas have certain very specific jobs to do within a sentence. Let us look at each in turn:

- (i) Commas separate items in a list:

I bought apples, pears, and grapes.
She washed up, made the beds, and had breakfast.

The novel is funny, touching, and beautifully written.

The final comma before 'and' in a list is optional. However, use it to avoid any ambiguity. See (ix) below.

- (ii) Commas are used to separate terms of address from the rest of the sentence:

Sheila, how nice to see you!

Can I help you, madam?

I apologise, ladies and gentlemen, for this delay.

Note that a pair of commas is needed in the last example above because the term of address occurs mid-sentence. It is a very common error to omit

one of the commas.

- (iii) Commas are used to separate interjections, asides and sentence tags like *isn't it?* *don't you?* *haven't you?*. You'll notice in the examples below that all these additions could be removed and these sentences would still be grammatically sound:

My mother, despite her good intentions, soon stopped going to the gym.

Of course, I'll help you when I can.
You've met Tom, haven't you?

- (iv) Commas are used to mark off phrases in apposition:

Prince Charles, the future king, has an older sister.

The phrase 'the future king' is another way of referring to 'Prince Charles' and is punctuated just like an aside.

- (v) A comma separates any material that precedes it from the main part of the sentence:

Although she admired him, she would never go out with him.

If you want to read the full story, buy *The Sunday Times*.

Note that if the sentences are reversed so that the main part of the sentence comes first, the comma becomes optional.

- (vi) Commas mark off participles and participial phrases, whenever they come in the sentence:

Laughing gaily, she ran out of the room.

He flung himself on the sofa,

COMMAS

overcome with remorse.

The children, whispering excitedly,
crowded through the door.

For a definition of participles see

PARTICIPLES.

- (vii) Commas mark off some adjectival clauses. Don't worry too much about the grammatical terminology here. You'll be able to decide whether you need to mark them off in your own work by matching them against these examples.

Can you see the difference in meaning that a pair of commas makes here? Read the two sentences aloud, pausing where the commas indicate that you should pause in the first sentence, and the two different meanings should become clear:

The firemen, who wore protective clothing, were uninjured. (= nobody injured)

The firemen who wore protective clothing were uninjured. (but those who didn't wear it...)

- (viii) Commas are used to mark a pause at a suitable point in a long sentence. This will be very much a question of style. Read your own work carefully and decide exactly how you want it to be read.

- (ix) Commas are sometimes needed to clarify meaning. In the examples below, be aware how the reader could make an inappropriate connection:

She reversed the car into the main road and my brother waved goodbye.

COMPARATIVE AND SUPERLATIVE

She reversed the car into the main road and my brother??

She reversed the car into the main road, and my brother waved goodbye.

In the skies above the stars glittered palely.

In the skies above the stars??

In the skies above, the stars glittered palely.

Notice how the comma can sometimes be essential with 'and' in a list:

We shopped at Moores, Browns, Supervalu, Marks and Spencer and Leonards.

Is the fourth shop called Marks, or Marks and Spencer?

Is the fifth shop called Leonards, or Spencer and Leonards?

A comma makes all clear:

We shopped at Moores, Browns, Supervalu, Marks and Spencer, and Leonards.

comparative and superlative

(i) Use the comparative form of adjectives and adverbs when comparing two:

COMPARATIVE AND SUPERLATIVE

John is **TALLER** than Tom.

John works **MORE ENERGETICALLY** than Tom.

Use the superlative form when comparing three or more:

John is the **TALLEST** of all the engineers.

John works **THE MOST ENERGETICALLY** of all the engineers.

- (ii) There are two ways of forming the comparative and superlative of adjectives:

- (a) Add -er and -est to short adjectives:

tall	taller	tallest
happy	happier	happiest

- (b) Use more and most with longer adjectives:

dangerous	more dangerous	most dangerous
successful	more successful	most successful

The comparative and superlative forms of adverbs are formed in exactly the same way:

- (c) Short adverbs add -er and -est.

You run **FASTER** than I do.

He runs the **FASTEST** of us all.

- (d) Use more and most with longer adverbs.

Nikki works **MORE**

CONSCIENTIOUSLY than Sarah.

Niamh works **THE MOST**

CONSCIENTIOUSLY of them all.

- (iii) There are three irregular adjectives:

good	better	best
bad	worse	worst

COMPLEMENTARY OR COMPLIMENTARY?

many	more	most
There are four irregular adverbs:		
well	better	best
badly	worse	worst
much	more	most
little	less	least

(iv)

A very common error is to mix the two methods of forming the comparative and the superlative:

more simpler ⑥ simpler ②
more easiest ⑥ easiest ②

(v) Another pitfall is to try to form the comparative and superlative of absolute words like perfect, unique, excellent, complete, ideal. Something is either perfect or it isn't. It can't be more perfect or less perfect, most perfect or least perfect.

**compare to/
compare with**

consistent	(<i>not</i> -ant)
consonant	There are 21 consonants in the alphabet, all the letters except for the vowels: bcdfghjklmnpqrstvwxyz Note, however, that y can be both a vowel and a consonant: y is a consonant when it begins a word or a syllable (yolk, beyond); y is a vowel when it sounds like i or e (sly, baby).
contagious or infectious?	Both refer to diseases passed to others. Strictly speaking, CONTAGIOUS means passed by bodily contact, and INFECTIOUS means passed by means of air or water. Used figuratively, the terms are interchangeable: INFECTIOUS laughter, CONTAGIOUS enthusiasm.
contemporary	(<i>not</i> contempory, as often mispronounced) Nowadays, this word is used in two senses:

CONTEMPTIBLE OR CONTEMPTUOUS

- (a) happening or living at the same time
(in the past)
- (b) modern, current

Be aware of possible ambiguity if both these meanings are possible in a given context:

Hamlet is being performed in contemporary dress (sixteenth-century or modern?).

contemptible or contemptuous

A person or an action worthy of contempt is **CONTEMPTIBLE**.

A person who shows contempt is **CONTEMPTUOUS**.

continual

continually

continual or continuous?

CONTINUAL means frequently repeated, occurring with short breaks only.

CONTINUOUS means uninterrupted.

contractions

Take care with placing the apostrophe in contractions. It is placed where the letter has been omitted and not where the two words are joined. These happen to coincide in some contractions:

I'd (I would)
they aren't (they are not)
it isn't (it is not)
you hadn't (you had not)
you wouldn't (you would not)
she won't (she will not)
we haven't (we have not)
I shan't (I shall not)

It was common in Jane Austen's time to use two apostrophes in shan't (sha'n't) to show that two sets of letters had been omitted but this is no longer correct today.

correspondent or co-respondent?	A CORRESPONDENT is someone who writes letters. A CO-RESPONDENT is cited in divorce proceedings.
could of	This is incorrect and arises from an attempt to write down what is heard. Write 'could've' in informal contexts and 'could have' in formal ones. I COULD HAVE given you a lift. I COULD'VE given you a lift. Beware also: should of/would of/must of/might of. All are incorrect forms.
couldn't	See CONTRACTIONS .
council or counsel?	A COUNCIL is a board of elected representatives. COUNSEL is advice, also the term used for a barrister representing a client in court.
councillor or counsellor?	A COUNCILLOR is an elected representative. A COUNSELLOR is one who gives professional guidance, such as a study COUNSELLOR , a marriage COUNSELLOR , a debt COUNSELLOR .

dashes

Dashes are used widely in informal notes and letters.

- (i) A dash can be used to attach an afterthought:

I should love to come – that's if I can get the time off.

- (ii) A dash can replace a colon before a list in informal writing:

The thieves took everything – video, television, cassettes, computer, camera, the lot.

- (iii) A dash can precede a summary:

Video, television, cassettes, computer, camera – the thieves took the lot.

- (iv) A pair of dashes can be used like a pair of commas or a pair of brackets around a parenthesis:

Geraldine is – as you know – very shy with strangers.

- (v) A dash can mark a pause before the climax is reached:

There he was at the foot of the stairs – dead.

(vi) Dashes can indicate hesitation in speech:

I – er – don’t – um – know what – what to say.

(vii) Dashes can indicate missing letters or even missing words where propriety or discretion require it:

c – – l (ship of the desert)
Susan L— comes from Exeter.
He swore softly, ‘—— it’.

data (plural)

datum (singular)

Strictly speaking, **DATA** should be used with a plural verb:

The **DATA** have been collected by research students.

You will, however, increasingly see **DATA** used with a singular verb and this use has now become acceptable.

The **DATA** has been collected by research students.

denouement/ dénouement	Both spellings are correct.
dependant or dependent?	The adjective (meaning reliant) is always -ent. She is a widow with five DEPENDENT children. I am absolutely DEPENDENT on a pension. The noun (meaning someone who is dependent) has traditionally been spelt -ant. However, the American practice of writing either -ant or -ent for the noun has now spread here. Either spelling is now considered correct for the noun but

be aware that some conservative readers would consider this slipshod.

She has five **DEPENDANTS/DEPENDENTS**.

difference	(<i>not</i> -ance)
different	(<i>not</i> -ant)
different from/to/than	'Different from' and 'different to' are now both considered acceptable forms. My tastes are DIFFERENT FROM yours. My tastes are DIFFERENT TO yours. Conservative users would, however, much prefer the preposition 'from' and this is widely used in formal contexts. 'Different than' is acceptable in American English but is not yet fully acceptable in British English.
difficult	(<i>not</i> differcult, <i>not</i> difficalt)

DISCOVER OR INVENT?

dilapidated	(<i>not</i> delapidated)
dilemma	This word is often used loosely to mean 'a problem'. Strictly speaking it means a difficult choice between two possibilities.
dinghy or dingy?	A DINGHY is a boat (plural – dinghies). See PLURALS (iii). DINGY means dull and drab.
dingo (singular)	dingoes or dingos (plural)

dishevelled	
disintegrate	(<i>not</i> disintergrate)
disinterested or uninterested?	Careful users would wish to preserve a distinction in meaning between these two words. Use the word DISINTERESTED to mean 'impartial, unselfish, acting for the good of others and not for yourself'. My motives are entirely DISINTERESTED ; it is justice I am seeking. Use UNINTERESTED to mean 'bored'. His teachers say he is reluctant to participate and is clearly UNINTERESTED in any activities the school has to offer. Originally, DISINTERESTED was used in this sense (= having no interest in, apathetic), and it is interesting that this meaning is being revived in popular speech.

	Avoid this use in formal contexts, however, for it is widely perceived as being incorrect.
disiple	Wrong spelling. See DISCIPLE .
disk	See DISC OR DISK? .
displace or misplace?	<p>To displace is to move someone or something from its usual place:</p> <p>A DISPLACED hip; a DISPLACED person.</p> <p>To misplace something is to put it in the wrong place (and possibly forget where it is):</p> <p>A MISPLACED apostrophe; MISPLACED kindness.</p>

See **CONTRACTIONS**.

dose

See **DOES OR DOSE?**.

double meaning

See **AMBIGUITY**.

double negatives

The effect of two negatives is to cancel each other out. This is sometimes done deliberately and can be effective:

I am not ungenerous. (= I am very generous.)

He is not unintelligent. (= He is quite intelligent.)

Frequently, however, it is not intentional and the writer ends up saying the opposite of what is meant:

I haven't had no tea. (= I have had tea.)

You don't know nothing. (= You know something.)

Be particularly careful with 'barely', 'scarcely', 'hardly'. These have a negative force.

I wasn't **SCARCELY** awake when you rang. (= I was very awake.)

Be careful too with constructions like this:

I wouldn't be surprised if he didn't come.

Say either: I wouldn't be surprised if he came.

or: I would be surprised if he didn't come.

Sometimes writers put so many negatives in a sentence that the meaning becomes too complicated to unravel:

Mr Brown denied vehemently that it was

DRIER OR DRYER?

unlikely that no one would come to the concert.

Does Mr Brown think that the concert will be popular or not?

Rewrite as either:

Mr Brown was certain the concert would be well attended.

Or: Mr Brown feared that no one would come to the concert.

drawers or draws?

DRAWS is a verb.

She **DRAWS** very well for a young child.

DRAWERS is a noun.

The **DRAWERS** of the sideboard are very stiff.

dreamed/dreamt

Both spellings are correct.

drier or dryer?

DRIER is generally used for the comparative form (**DRIER** = more dry).

DRYER is generally used for a drying machine (hair **DRYER**, clothes **DRYER**).

DRUNKENNESS

However, both spellings are interchangeable.

dual or duel?

DUAL means two (e.g. **DUAL** controls, **DUAL** carriageway).

DUEL means fight or contest.

duchess

(*not* dutchess)

due to/owing to

Strictly speaking, 'due to' should refer to a noun:

His *absence* was **DUE TO** sickness. (noun)

The *delay* was **DUE TO** leaves on the line. (noun)

'Owing to', strictly speaking, should refer to a verb:

The march *was cancelled* **OWING TO** the storm. (verb)

OWING TO an earlier injury, he *limped* badly. (verb)

However, in recent years, the use of 'due to' where traditionally 'owing to' would be required has become widespread.

Nevertheless, some careful writers continue to preserve the distinction and you may wish to do so too in a formal context.

(*not* -ie-) An exception to the EI/IE SPELLING RULE.

either ... or

- (i) Take care with singular and plural verbs.

Use these exemplar sentences as a guide:

Either Jack or Tom *was* there.
(singular verb to match Jack (singular) and Tom (singular))

Either Jack or his brothers *were* there.
(plural verb to match 'brothers' (plural) which is closer to it than 'Jack' (singular))

Either his brothers or Jack *was* there.
(singular verb this time because 'Jack' (singular) is closer to the verb than 'brothers')

- (ii) Be careful to place each part of the 'either ... or' construction correctly.
- ⑥ I have decided either that I have to build an extension or I have to move.
- ② I have decided that either I have to build an extension or I have to move.

In the example above, there are these two possibilities:

I have to build an extension.
I have to move.

'Either' precedes the first one and 'or' precedes the second.

EMIGRANT OR IMMIGRANT?

The second one could be shortened:

I have decided that either I have to build an extension or (I have to) move.

- ② I have decided that either I have to build an extension or move.

It is important that the two constructions following 'either' and 'or' should be parallel ones:

either meat or fish
either green or red
either to love or to hate
either with malice or with kindness.

If the second construction is shortened to avoid repetition, this is fine. The missing words are obvious and can be supplied readily.

foreign plurals

Some foreign words in English have retained their foreign plurals. Some have both foreign and English plurals. Take care, however, with the words that are asterisked below because the foreign plural of these is used in a different sense from the English plural. Check these words under individual entries for the distinction in meaning.

<i>singular -a</i>	<i>foreign plural</i>	<i>English plural</i>

hyphens

- (i) Hyphens are used to indicate word-breaks where there is not space to complete a word at the end of a line.

Take care to divide the word at an appropriate point between syllables so that your reader is not confused and can continue smoothly from the first part of the word to the second part.

There are dictionaries of hyphenation available that will indicate sensible places to break words. They don't always agree with each other! You will also notice a difference in practice between British English and American English.

Increasingly, however, the trend is towards American English practice, i.e. being guided by the way the word is pronounced. Break the word in such a way as to preserve the overall pronunciation as far as possible. It is really a matter of common sense. For this reason you will avoid breaking:

father	into	fat-her
legend	into	leg-end
therapist	into	the-rapist
manslaughter	into	mans-laughter
notable	into	not-able
		and so on!

Note: that the hyphen should be placed at the end of the first line (to indicate that the word is to be continued). It is not repeated at the beginning of the next.

The children shouted enthusiastically as they raced towards the sea.

If you are breaking a word that is already hyphenated, break it at the existing hyphen:

Both my parents are extremely absent-minded.

Breaking a word always makes it look temporarily unfamiliar. You will notice that in printed books for very young readers word-breaks are always carefully avoided. Ideally, you also will try to avoid them. Anticipate how much space a word requires at the end of a line and start a new line if necessary. Whatever happens, avoid breaking a word very close to its beginning or its end, and never break a one-syllabled word.

- (ii) Hyphens are used to join compound numbers between 21 and 99:

twenty-one	twenty-five
fifty-five	fifty-fifth
ninety-nine	ninety-ninth

Hyphens are also used to join fractions when they are written as words:

three-quarters
five-ninths

- (iii) Hyphens are used to join compound words so that they become one word:

my son-in-law
a twenty-pound note
her happy-go-lucky smile

You will sometimes need to check in a dictionary whether a word is

HYPOCRISY

hyphenated or not. Sometimes words written separately in a ten-year-old dictionary will be hyphenated in a more modern one; sometimes words hyphenated in an older dictionary will now be written as one word.

Is it washing machine or washing-machine, wash-basin or washbasin, print-out or printout?

Such words need to be checked individually.

- (iv) Hyphens are used with some prefixes:

co-author, ex-wife, anti-censorship

Check individual words in a dictionary
If you are in doubt.

Always use a hyphen when you are using a prefix before a word that begins with a capital letter:

pro-British, anti-Christian, un-American

Sometimes a hyphen is used for the sake of clarity. There is a difference in meaning between the words in these pairs:

re-cover and recover

re-form and reform

co-respondent and correspondent

- (v) Hyphens are also used to indicate a range of figures or dates:

There were 12 - 20 people in the room.

He was killed in the 1914 - 18 war.

TEAMFLY

I/me/myself

These three words are pronouns and cause a great deal of confusion.

- (i) Most people use the pronoun 'I' correctly when it is used on its own:

I love cats.

I like chocolate.

I mow the lawn every Sunday.

I am trying to lose weight.

I have two sisters.

Confusion generally arises with phrases like 'my husband and I' and 'my husband and me'. Which should it be?

The simplest method is to break the sentence into two and see whether 'I' or 'me' sound right:

My husband likes chocolate.

I like chocolate.

MY HUSBAND AND I like chocolate.

- (ii) Most people use the pronoun 'me' correctly when it is used on its own:

The burglar threatened **ME**.

It was given to **ME**.

Once again confusion arises when a pair is involved. The advice remains the same. Break the sentence into two and see whether 'I' or 'me' sounds right:

The burglar threatened my husband.

The burglar threatened **ME**.

The burglar threatened **MY**

HUSBAND AND ME.

It was given to my husband.

It was given to **ME**.

It was given to **MY HUSBAND AND ME**.

(iii) The pronoun 'myself' has two distinct functions.

- It can be used in constructions like this where it is essential to the sense:

I cut **MYSELF** yesterday.

I did it by **MYSELF**.

- It can be used to help emphasise a point. In these cases, it can be omitted without changing the overall sense:

I'll wrap the parcel **MYSELF**.

MYSELF, I would disagree.

'Myself' should never be used as a substitute for 'I' or 'me'.

- ⑥ My friend and myself had a wonderful time in Austria.
- ② My friend and I had a wonderful time.
- ⑥ They presented my brother and myself with a silver cup.
- ② They presented my brother and me with a silver cup.
- ⑥ This is from Henry and myself.
- ② This is from Henry and me.

-ible

idea or ideal?

See **-ABLE/-IBLE**.

Bristolians have particular difficulty distinguishing between these two because of the intrusive Bristol 'I'. These exemplar sentences should help:

Your **IDEA** is brilliant.

This is an **IDEAL** spot for a picnic.

His **IDEALS** prevent him from eating meat.

indirect speech/ reported speech	Unlike direct speech where the words actually spoken are enclosed within inverted commas, indirect speech requires no inverted commas. <i>Direct:</i> 'I am exhausted,' said Sheila. <i>Indirect:</i> Sheila said that she was exhausted. <i>Note</i> how direct questions and commands become straightforward statements when they are reported in indirect speech. A full stop at the end is sufficient. <i>Direct:</i> 'What is your name?' Mr Brown asked the new boy. <i>Indirect:</i> Mr Brown asked the new boy his name. <i>Direct:</i> 'Fire!' commanded the officer. <i>Indirect:</i> The officer commanded his men to fire.

inverted commas	Inverted commans can be double (“ ”) or single (‘ ’). Use whichever you wish as long as you are consistent, In print, single inverted commas are generally used; in handwriting, double inverted commas are frequently used for enclosing direct speech

INVERTED COMMAS

and single inverted commas for enclosing titles and quotations. There are no hard-and-fast rules.

Direct speech

Inverted commas should enclose the actual words of speech that are being quoted.

'You are very welcome,' she said.
She said, 'You are very welcome.'
'You are,' she said, 'very welcome.'

Note the punctuation conventions in the sentences above. These will be examined more closely now.

► Speech first and narrative second.

'You are very welcome,' she said.
'Are you tired?' she asked.
'Not at all!' he exclaimed.

Notice that the appropriate punctuation is enclosed with the words spoken.

Note that the narrative continues with an initial small letter: she/he.

► Narrative first and speech second.

Brian said, 'You're very late.'
Brian asked, 'What kept you?'
Sarah snapped, 'Don't cross-question me!'

Notice that a comma always divides the narrative from the direct speech.

Note that the direct speech always begins with a capital letter.

Note that the appropriate punctuation mark is enclosed within the inverted commas with the words spoken and no further end stop is required.

- Speech interrupted by narrative.

‘We have all been hoping,’ said my mother, ‘that you will join us on Christmas Day.’

Note that the two parts of the interrupted spoken sentence are enclosed by inverted commas.

Note that a comma (within the inverted commas) marks the break between speech and narrative, and that another comma (after the narrative and before the second set of inverted commas) marks the resumption of the direct speech.

Note that the interrupted sentence of speech is resumed without the need for a capital letter.

- Longer speeches and the layout of dialogue.

‘I should love to join you on Christmas Day,’ said Sean.

The children were ecstatic. They cried together, ‘That’s wonderful!’

‘Indeed it is,’ said my mother. ‘When will you be able to get to us?’

‘By 10 o’clock.’

‘Really? That’s splendid!’

The rule is ‘a new line for a new speaker’ even if the speech is only a word or two. In addition, each new speech should ideally be indented a little to make it easier for the reader to follow the cut and thrust of dialogue.

Note how a speech of two or more sentences is punctuated.

‘Indeed it is,’ said my mother. ‘When will you be able to get to us?’

INVISIBLE

If this were lengthened further, the close of the second pair of inverted commas would be delayed accordingly:

‘Indeed it is,’ said my mother. ‘When will you be able to get to us? Need I say “the earlier the better”? You know that we’ll be up at the crack of dawn.’

- Inverted commas are used to enclose titles.

Have you read ‘Angela’s Ashes’ by Frank McCourt?

Alternatively, the title can be underlined or, in print, italicised. Inverted commas will not then be needed.

- Inverted commas are used to enclose quotations.

Like Coriolanus, I often feel that ‘there is a life elsewhere’.

Note that the final full stop comes outside the inverted commas enclosing the quotation. Incorporating a quotation in a sentence is different from punctuating direct speech.

See **INDIRECT/REPORTED SPEECH**.
See **TITLES**.

invisible

irrational

iridescent

(*not* -rr-)

irony or sarcasm?

IRONY is subtle, amusing, often witty. **SARCASM** is deliberately hurtful and intentionally cruel.

Irony comes from a Greek word meaning ‘pretended ignorance’.

Sarcasm comes from a Greek word meaning 'to tear the flesh with one's teeth'.

Irony relies on those with insight realising that what is said is the opposite of what is meant.

Mr Bennet in Jane Austen's *Pride and Prejudice* frequently makes ironical remarks which only his more perceptive listeners will understand. When he tells one of his less musical daughters that she has delighted the company with her piano playing for long enough, she takes his remarks at face value. Jane and Elizabeth, two of her sisters, know exactly what he really meant.

Sarcasm sometimes uses this technique of irony and says in a very cutting way (which will be very clearly understood) the opposite of what is really meant.

When a teacher says, 'Brilliant!', to a pupil who fails yet again, he is being sarcastic and ironical at the same time. When a teacher says, 'Have you lost your tongue?' to a pupil, he is being sarcastic.

-ISE OR -IZE?

-ise or -ize?

Most words ending with this suffix can be spelt -ise or -ize in British English.

American English is more prescriptive and insists on -ize whenever there is a choice.

House-styles in Britain vary from publisher to publisher and from newspaper to newspaper. (You may have noticed that in this book I favour -ise.)

When making your choice, bear these two points in mind:

- ▶ These nineteen words *have* to be -ise: advertise, advise, apprise, arise, chastise, circumcise, comprise, compromise, despise, devise, disguise, enfranchise, excise, exercise, improvise, revise, supervise, surprise, televise.
- ▶ Only one verb of more than one syllable has to be -ize: capsize.
(One syllabled verbs like 'seize' still need care, of course.)

Whatever you decide, be consistent within one piece of writing and be consistent with derivatives. If you use 'realize' in one paragraph, you must use 'realization' and not 'realisation' at another point in the same piece. If you use 'sympathize', then you must refer to 'sympathizers' and not to 'sympathisers' elsewhere.

Many authorities prefer to use -ize when there is a choice. In practice, many writers prefer to use -ise because this choice is relatively trouble-free.

The decision is yours!

isn't

Place the apostrophe carefully. (*not* is'nt)

itinerary

(five syllables, not four as it is often mispronounced and misspelt)

its or it's?

ITS is a possessive adjective like 'her' and 'his':

The book has lost **ITS** cover.

ITS beauty has faded.

IT'S is a contraction of 'it is' or 'it has':

IT'S very cold today. (= it is)

IT'S been a long winter. (= it has)

If you are ever in doubt, see if you can expand 'its/it's' to 'it is' or 'it has'. If you can, you need an apostrophe. If you can't, you don't.

Remember too that contractions like 'it's' are fine in informal contexts but should be avoided in formal writing. When it's inappropriate to use slang, it is inappropriate to use these contractions. You have to write the forms in full.

no body or nobody?

Use these exemplar sentences as a guide:

It was believed that he had been murdered but **NO BODY** was ever found, and so nothing could be proved. (= no corpse)

NOBODY likes going to the dentist.
(= no one)

none

The problem with 'none' is deciding whether to use with it a singular or a plural verb.

Strictly speaking, a singular verb should accompany 'none':

NONE of the passengers **WAS** hurt.
(= not one)

NONE of the milk **WAS** spilt. (= not any)

Colloquially, a singular verb is always used with expressions of quantity but a plural verb is often used when plural nouns follow the 'none of...' construction:

NONE of the passengers **WERE** hurt.
NONE of my friends **LIKE** pop music.
NONE of the children **WANT** an ice-cream.

Some would reserve plural verbs in these cases for informal occasions; others would see them as perfectly acceptable formally as well.

no one

'No one' is singular and requires a singular verb:

NO ONE likes meanness.

'No one' should be written as two words and not hyphenated.

nosey/nosy

Both spellings are correct.

Note: for informal use only.

not only...but also

Take care with the positioning of each part of this pair:

- ⑥ Denise not only enjoys composing but also conducting.

Denise enjoys two musical activities: composing, conducting.

Put 'not only' in front of the first and 'but also' in front of the second, and let 'enjoys' refer to both.

- ② Denise enjoys **NOT ONLY** composing **BUT ALSO** conducting.

Compare **BOTH...AND; EITHER...OR; NEITHER...NOR**.

nouns

There are four kinds of nouns: common, proper, abstract and collective.

► Take care with the punctuation of *proper nouns*. Because they are the special individual names of people, towns, countries, newspapers, days of the week, businesses, and so on, they require initial capital letters:

Dennis Blakely

Ipswich

Sweden

The Times

Wednesday

Blazing Fireplaces Ltd.

Note that months of the year begin with a capital letter but the seasons generally do not:

April, the spring, but the Spring term.

NOUNS

- Do not confuse proper and *common nouns*.

labrador – common noun

Tinker – proper noun (needs initial capital)

There is a certain flexibility in sentences like this:

Bishop Flynn will be arriving at three o'clock. The bishop/Bishop would like to meet the confirmation candidates before the service begins.

- *Abstract nouns* are the names of ideas, emotions, states of mind, and so on.

The correct form can sometimes be difficult to remember. Do check in a dictionary when you are uncertain. Abstract nouns can have a huge variety of endings:

optimism, pride, complexity, failure, diffidence, depth, bravery, kindness, excitement, exhilaration, and so on

Unsophisticated writers often add -ness to an adjective in the hope that it will then be converted to an abstract noun. Sometimes this works; often it doesn't.

- *Collective nouns* (audience, flock, herd, congregation) are treated as singular nouns if regarded as a single whole:

The audience **WAS** wildly enthusiastic.

They are treated as plural nouns when regarded as a number of units making up the whole:

The jury **WERE** divided over his guilt.

numbers

Should numbers be written in figures or in words? In mathematical, scientific, technical and business contexts, figures are used, as you would expect.

The problem arises in straightforward prose (an essay, perhaps, or a short story or a letter).

The rule of thumb is that small numbers are written as words and large numbers are written as figures.

What are small numbers? Some people would say numbers up to ten; others numbers up to twenty; others numbers up to one hundred. If you're not bound by the house-style of a particular organisation, you can make up your own mind. Numbers up to one hundred can be written in one or two words and this is why this particular cut-off point is favoured.

There were eight children at the party.
There were eighty-four/84 people in the audience.

Remember to hyphenate all compound numbers between twenty-one and ninety-nine when they are written as words.

Round numbers over one hundred, like two thousand, five million, and so on, are also usually written in words.

Write dates (21 October 2001) and sums of money (£10.50) and specific measurements (10.5 cm) in figures.

Time can be written in words or figures (three o'clock/3 o'clock) but 24-hour clock

NURSERY

times are always written in figures (08.00).

Centuries can be written in words or figures (the 18th century/the eighteenth century).

It is important to be consistent within one piece of writing.

one This can be a useful impersonal pronoun:

ONE never knows.

However, it can be difficult to keep up in a long sentence:

ONE never knows if **ONE'S** husband is likely to approve of **ONE'S** choice but that is a risk **ONE** has to take.

Use 'one' sparingly and beware the risk of pomposity.

only The position of 'only' in a sentence is crucial to meaning.

See **AMBIGUITY** (ii).

onnist Wrong spelling. See **HONEST**.

onto or on to? There are circumstances when the words must always be written separately. We will consider these first.

- Always write the words separately if 'to' is part of an infinitive (e.g. to eat, to speak, to be, to watch, etc.):

She drove **ON TO** test the brakes.

As a matter of interest you can double-check the 'separateness' of the two words by separating them further:

She drove **ON** because she wanted **TO** test the breaks.

- Always write the words separately when 'to' means 'towards':

We cycled **ON TO** Oxford.

Once again, the two words can be further separated:

We cycled **ON** the few remaining miles **TO** Oxford.

- It is permissible to write 'onto' or 'on to' when you mean 'to a position on':

The acrobat jumped **ONTO** the trapeze.

The acrobat jumped **ON TO** the trapeze.

It should be borne in mind, however, that many careful writers dislike 'onto' and always use 'on to'.

'Onto' is more common in American English but with the cautions expressed above.

- paragraphing** There is no mystery about paragraphing although many students find it difficult to know when to end one paragraph and begin another.
A paragraph develops a particular point that is relevant to the overall subject. If you wish to write a letter or an essay that develops five or six points, then each point will have its own paragraph and you will add two more, one by way of an introductory paragraph and another at the end as a conclusion.
There are no rules about how long a paragraph should be. Some paragraphs,

PARAGRAPHING

often the introduction or the conclusion, may be a single sentence; other paragraphs may be a page or more long. Too many short paragraphs in succession can be very jerky; too many very long ones can look forbidding. It is best to mix long and short paragraphs, if you can.

You may also find that a paragraph which is becoming very long (a page or more) will benefit from being subdivided. The topic of the paragraph may be more sensibly developed as two or three subsidiary points.

Clear paragraphing is not possible without clear thinking. Think of what you want to say before you begin to write. List the topics or points you want to make in a sensible order. Then develop each one in turn in a separate paragraph.

A paragraph usually contains within it one sentence which sums up its topic. Sometimes the paragraph will begin with this sentence (called a topic sentence) and the rest of the paragraph will elaborate or illustrate the point made. Sometimes the topic sentence occurs during the paragraph. It can be effective, from time to time, to build up to the topic sentence as the last sentence in a paragraph.

Careful writers will try to move smoothly from one paragraph to the next, using link words or phrases such as: on the other hand; however; in conclusion.

In handwriting and in typing, it is usual to mark the beginning of a paragraph either by indenting it by 2cm or so, or by leaving a clear line between paragraphs. The only disadvantage of the latter method is that it is not always clear, when a sentence begins on a new page, whether a new paragraph is also intended.

penicillin	
peninsula or peninsular?	PENINSULA is a noun meaning a narrow piece of land jutting out from the mainland into the sea. It is derived from two Latin words: <i>paene</i> (almost) and <i>insula</i> (island). Have you ever camped on the Lizard PENINSULA ? PENINSULAR is an adjective, derived from the noun: The PENINSULAR War (1808–1814) was fought on the Iberian PENINSULA between the French and the British. <i>Note:</i> It may be useful in a quiz to know that the P&O shipping line was in 1837 The Peninsular Steam Navigation Company (it operated between Britain and the Iberian Peninsula). In 1840, when its operation was extended to Egypt, it became the Peninsular and Oriental Steam Navigation Company (hence P&O).

plurals	<p>(i) Most words form their plural by adding -s:</p> <p>door doors; word words; bag bags; rainbow rainbows; shop shops; car cars</p> <p>(ii) Words ending in a sibilant (a hissing sound) add -es to form their plural. This adds a syllable to their pronunciation and so you can always hear when this has happened:</p> <p>bus buses; box boxes; fez fezes/fezzes; bench benches; bush bushes; hutch hutches.</p> <p>(iii) Words ending in -y are a special case. Look at the letter that precedes the final -y. If the word ends in vowel + y, just add -s to form the plural (vowels: a, e, i, o, u):</p> <table><tr><td>day</td><td>days</td></tr><tr><td>donkey</td><td>donkeys</td></tr><tr><td>boy</td><td>boys</td></tr><tr><td>guy</td><td>guys</td></tr></table>	day	days	donkey	donkeys	boy	boys	guy	guys
day	days								
donkey	donkeys								
boy	boys								
guy	guys								

PLURALS

If the word ends in consonant + y,
change the y to i, and add -es:

lobby	lobbies
opportunity	opportunities
body	bodies
century	centuries

This rule is well worth learning by heart. There are no exceptions. Remember an easy example as a key like boy/boys.

- (iv) Words ending in -o generally add -s to form the plural:

piano	pianos
banjo	banjos
studio	studios
soprano	sopranos
photo	photos
kimono	kimonos

There are nine exceptions which add -es:

domino	dominoes
echo	echoes
embargo	embargoes
hero	heroes
mosquito	mosquitoes
no	noes
potato	potatoes
tomato	tomatoes
torpedo	torpedoes

About a dozen words can be either -s or -es and so you'll be safe with these. Interestingly, some of these words until recently have required -es (words like cargo, mango, memento, volcano). The trend is towards the regular -s ending and some words are in a transitional stage.

- (v) Words ending in -f and -fe generally add -s to form the plural:

roof	roofs
cliff	cliffs
handkerchief	handkerchiefs
carafe	carafes
giraffe	giraffes

There are 13 exceptions which end in -ves in the plural. You can always hear when this is the case, but here is the complete list for reference:

knife/knives; life/lives; wife/wives;
elf/elves; self/selves; shelf/shelves;
calf/calves; half/halves; leaf/leaves;
sheaf/sheaves; thief/thieves; loaf/loaves;
wolf/wolves.

Four words can be either -fs or -ves:

hoofs/hooves; scarfs/scarves;
turfs/turves; wharfs/wharves.

- (vi) Some nouns are quite irregular in the formation of their plural.

Some words don't change:

aircraft, cannon, bison, cod, deer,
sheep, trout

Some have a choice about changing or staying the same in the plural:

buffalo or buffaloes

Eskimo or Eskimos

Other everyday words have very peculiar plurals which perhaps we take for granted:

man	men	ox	oxen
woman	women	mouse	mice
child	children	louse	lice
foot	feet	die	dice
goose	geese		

PNEUMONIA

mongooses seems very strange but is
correct.

Ian is Scottish; his wife is Irish.

- (ii) They can replace the commas in a list which separate items. Semicolons are

particularly useful with longer items where commas might be needed for other reasons.

Emily has bought some lovely things for her new flat: five huge, brightly coloured floor cushions; some woven throws, in neutral colours and of wonderful textures; an Afghan rug; a brilliant blue glass vase; and a wine-rack, very elegant, shaped like two Ss on their backs.

sewage or sewerage?

SEWAGE = the waste products carried off by means of sewers

SEWERAGE = the provision of a drainage system

shall or will?

The simple future tense uses 'shall' with I and we and 'will' with the other pronouns:

I shall drive

you (singular) will drive

he/she/it will drive

we shall drive

you (plural) will drive

they will drive

By reversing 'shall' and 'will' you introduce a note of determination.

I will drive

you shall drive

he/she/it shall drive

we will drive

you shall drive

they shall drive

This distinction is lost in the contraction:

I'll drive. However, in speech, the tone of voice will indicate which is intended.

The blacksmith **SHOES** the horse.

He is **SHOEING** the horse now.

He **SHOD** the horse last week.

He has **SHOD** the horse regularly.

should or would? 'Should' and 'would' follow the pattern of 'shall' and 'will'.

I should work (if I had the choice)

you (singular) would work

he/she/it would work
we should work
you (plural) would work
they would work

The correct construction often needed in a formal letter is:

I **SHOULD** be grateful if you **WOULD** send me . . .

In the sense of 'ought to', use 'should' in all cases:

I know I **SHOULD** apologise.
You **SHOULD** write to your parents.
She **SHOULD** understand if you explain.
He **SHOULD** understand.
We **SHOULD** repair the shed.
You all **SHOULD** work harder.

social or sociable?	SOCIAL = related to society. a SOCIAL worker , a SOCIAL problem, SOCIAL policy, SOCIAL housing SOCIABLE = friendly a very SOCIABLE person These two words are quite distinct in meaning even though they may be used with the same noun: a SOCIAL evening = an evening organised for the purpose of recreation

SOFT C AND SOFT G

a **SOCIABLE** evening = a friendly evening where everyone mixed well

With any luck the social evening was also a sociable one!

soft c and soft g

The letter c has two sounds. It can be hard and sound like k or it can be soft and sound like s.

The letter g has two sounds. It can be hard and sound like g in got and it can be soft and sound like j.

Usually, but not always, c and g sound hard when they precede a, o, u:

cat	cot	cut
gap	got	gut

They are generally soft when they precede e and i (and y):

cell	cider	cyberspace
germ	gin	gyrate

Sometimes an extra e is inserted into a word before a, o, u, so that the c or g in the word can sound soft:

noticeable	(<i>not</i> noticable)
manageable	(<i>not</i> managable)

Sometimes an extra k is inserted into a word between c and a, o, u, so that c can sound hard:

picnicking	(<i>not</i> picnicing)
trafficking	(<i>not</i> trafficking)

soldier

Take care with the spelling of this word. (soldiers of the Queen, not soliders!)

spilled/spilt	Both spellings are correct.
split infinitive	The infinitive of a verb is made up of two words: to eat, to speak, to begin, to wonder If a word (or a group of words) comes between the two words of an infinitive, the infinitive is said to be 'split'. It is not a serious matter at all! You may sometimes find it is effective to split an infinitive. Do so. On other occasions to split the infinitive may seem clumsy. Avoid doing so on those occasions. Use your own judgement. Here are some examples of split infinitives:

SPOILED/SPOILT

to boldly go where no man has gone before
to categorically and emphatically deny any wrongdoing
to sometimes wonder how much will be achieved

They can easily be rewritten:

to go boldly
to deny categorically and emphatically
to wonder sometimes

spoiled/spoilt

Both spellings are correct.

stand

Don't confuse the grammatical formation of tenses.

We **STAND** by the window after breakfast.

We **ARE STANDING** now.

We **HAVE BEEN STANDING** for an hour.

We **STOOD** by the window yesterday.

We **WERE STANDING** there when you called.

who or whom?	The grammatical distinction is that 'who' is a subject pronoun and 'whom' is an object pronoun. (i) Use this method to double-check whether you need a subject pronoun or an object pronoun when who/whom begins a question: Ask yourself the question and anticipate the answer. If this could be one of the subject pronouns (I, he, she, we or they), then you need 'who' at the beginning of the question: Who/whom is there? The answer could be: <i>I</i> am there. (2) WHO is there?

WHOLE

If the answer could be one of the object pronouns (me, him, her, us or them), then you need 'whom' at the beginning of the question:

Who/whom did you meet when you went to London?

The answer could be: I met *him*.

② **WHOM** did you meet?

(ii) Use this method if who/whom comes in the middle of a sentence:

Break the sentence into two sentences and see whether a subject pronoun (I, he, she, we, they) is needed in the second sentence or an object pronoun (me, him, her, us, them).

Here is the man who/whom can help you.

Divide into two sentences:

Here is the man. *He* can help you.

② Here is the man **WHO** can help you.

Literary Terms

Here are a few of the most widely used literary devices. You will probably be familiar with them in practice but perhaps cannot always put a name to them.

alliteration the repetition of sounds at the beginning of words and syllables.

- ▶ Around the rugged rocks the ragged rascals ran.

climax ▶ I came; I saw; I conquered!

epigram a short pithy saying.

- ▶ Truth is never pure, and rarely simple. (Oscar Wilde)

euphemism an indirect way of referring to distressing or unpalatable facts.

- ▶ I've *lost* both my parents. (= they've died)
- ▶ She's rather *light-fingered*. (= she's a thief)

hyperbole exaggeration.

- ▶ Jack cut his knee rather badly and lost *gallons* of blood.
- ▶ What's for lunch? I'm *starving*.
- ▶ I loved Ophelia. *Forty thousand brothers
Could not, with all their quantity of love,
Make up my sum.* (Shakespeare: 'Hamlet')

irony saying one thing while clearly meaning the opposite.

- ▶ For Brutus is an *honourable* man. (Shakespeare: 'Julius Caesar')

litotes understatement.

- ▶ He was *not exactly polite*. (= very rude)
- ▶ I am a citizen of *no mean city*. (= St Paul boasting about Tarsus and hence about himself)

metaphor a compressed comparison.

- ▶ Anna *flew* downstairs. (i.e. her speed resembled the speed of a bird in flight)
- ▶ Sleep that *knits up the ravelled sleeve of care*. (Shakespeare: 'Macbeth')

APPENDIX A LITERARY TERMS

- ▶ No man is *an island, entire of itself*. (John Donne)

metonymy the substitution of something closely associated.

- ▶ The *bottle* has been his downfall. (= alcohol)
- ▶ The *kettle's* boiling. (= the water in the kettle)
- ▶ The *pen* is mightier than the *sword*.

onomatopoeia echoing the sound.

- ▶ Bees *buzz*; sausages *sizzle* in the pan; ice-cubes *tinkle* in the glass.

Frequently, alliteration, vowel sounds and selected consonants come together to evoke the sounds being described:

- ▶ Only the monstrous anger of the guns
Only the stuttering rifles' rapid rattle
Can patter out their hasty orisons.
(Wilfred Owen: 'Anthem for Doomed Youth')

oxymoron apparently contradictory terms which make sense at a deeper level.

- ▶ The *cruel mercy* of the executioner bought him peace at last.

paradox a deliberately contradictory statement on the surface which challenges you to discover the underlying truth.

- ▶ If a thing is worth doing, it's worth doing badly. (G. K. Chesterton)

personification describing abstract concepts and inanimate objects as though they were people.

- ▶ Death *lays his icy hand* on kings. (James Shirley)

Often human feelings are also attributed. This extension of personification is called the **pathetic fallacy**.

- ▶ The wind *sobbed* and *shrieked in impotent rage*.

pun a play on words by calling upon two meanings at once.

- ▶ Is life worth living? It depends on the *liver*.

rhetorical question no answer needed!

- ▶ Do you *want* to fail your exam?

simile a comparison introduced by 'like', 'as', 'as if' or 'as though'.

- ▶ *O, my Luve's like a red red rose
That's newly sprung in June.* (Robert Burns)
- ▶ I wandered lonely *as a cloud*. (William Wordsworth)

APPENDIX A LITERARY TERMS

- ▶ You look *as if you've seen a ghost*.

synecdoche referring to the whole when only a part is meant, or vice versa.

- ▶ *England* has lost the Davis Cup. (= one person)
- ▶ *All hands* on deck!

transferred epithet the adjective is moved from the person it describes to an object.

- ▶ She sent an *apologetic* letter.
- ▶ He tossed all night on a *sleepless* pillow.

zeugma grammatical play on two applications of a word.

- ▶ She *swallowed* her pride and three dry sherries.
- ▶ She went straight home *in* a flood of tears and a sedan chair.
(Charles Dickens: 'The Pickwick Papers')

Appendix B

Parts of Speech

Each part of speech has a separate function.

Verbs are 'being' and 'doing' words.

It *seems*.

She *is laughing*.

All the pupils *have tried* hard.

Note also these three verb forms: the infinitive (*to seem*); the present participle (*trying*); the past participle (*spoken*).

Adverbs mainly describe verbs.

He spoke *masterfully*. (= how)

She *often* cries. (= when)

My grandparents live *here*. (= where)

Nouns are names (of objects, people, places, emotions, collections, and so on).

common noun: *table*

proper noun: *Emma*

abstract noun: *friendship*

collective noun: *swarm*

Pronouns take the place of nouns.

He loves me. *This* is *mine*. *Who* cares? *I* do.

Adjectives describe nouns and pronouns.

a *hard* exercise a *noisy* class *red* wine

Conjunctions are joining words.

co-ordinating: fish *and* chips; naughty *but* nice; now *or* never

subordinating: We trusted him *because* he was honest.

She'll accept *if* you ask her.

Everyone knows *that* you are doing your best.

Prepositions show how nouns and pronouns relate to the rest of the sentence.

Put it *in* the box. Phone me *on* Thursday. Give it *to* me. Wait *by* the war memorial. He's the boss *of* Tesco.

Interjections are short exclamations.

Hi! *Ouch!* *Hurray!* *Ugh!* *Oh!* *Shh!* *Hear, hear!*

The articles: definite (*the*)

indefinite (*a*; *an* – singular; *some* – plural)

Planning, Drafting and Proofreading

PLANNING

Whenever you have an important essay, letter, report or article to write, it's well worth taking time to work out in advance exactly what you want to say. Consider also the response you hope to get from those who read the finished document and decide on the tone and style which would be most appropriate.

- ▶ Next, jot down, as they come into your head, all the points that you want to include. Don't try to sort them into any order. Brainstorm. (It's better to have too much material at this stage than too little.)
- ▶ Then, read through these jottings critically, rejecting any that no longer seem relevant or helpful.
- ▶ Group related points together. These will form the basis of future paragraphs.
- ▶ Sequence these groups of points into a logical and persuasive order.
- ▶ Decide on an effective introduction and conclusion.

DRAFTING

Now you are ready to write the first draft.

- ▶ Concentrate on conveying clearly all that you want to say, guided by the structure of your plan.
- ▶ Choose your words with care. Aim at the right level of formality or informality.
- ▶ Put to one side any doubts about spelling, punctuation, grammar or usage. These can be checked later. (If you wish, you can pencil queries in the margin, or key in a run of question marks – ?????.)
- ▶ When you have finished this first draft, read it critically, concentrating initially on content. (It can help to read aloud.) Have you included everything? Is your meaning always clear? Should some points be expanded? Should some be omitted? Have you repeated yourself unnecessarily?

APPENDIX C PLANNING, DRAFTING AND PROOFREADING

- ▶ Read the amended text again, this time checking that you have maintained the appropriate tone. Make any adjustments that may be needed.
- ▶ Examine the paragraphing. Does each paragraph deal adequately with each topic? Should any paragraphs be expanded? Should any be divided? Should the order be changed? Does each paragraph link easily with the next? Are you happy with the opening and closing paragraphs? (Sometimes they work better when they are reversed.) Should any paragraphs be jettisoned?
- ▶ Are you happy with the layout and the presentation?
- ▶ If you have made a lot of alterations, you may wish to make a neat copy at this stage. Read through again, critically, making any adjustments that you feel necessary. You may find third and fourth drafts are needed if you are working on a really important document. Don't begrudge the time and effort. Much may depend on the outcome.

PROOFREADING

When you are happy with the content, style and tone, you are ready to proofread. Proofreading means scrutinising the text for spelling, punctuation, grammar, usage and typographical errors.

- ▶ Make yourself read very slowly. Best of all, read aloud. Read sentence by sentence, paragraph by paragraph. Read what is actually there, not what you *meant* to write.
- ▶ Check anything that seems doubtful. Check all the queries you tentatively raised earlier. Don't skip this vital penultimate stage. Don't rely wholly on a computer spellcheck; it will take you only so far (and, in some cases, introduce errors of its own).
- ▶ If you know you have a particular weakness (spelling, perhaps, or not marking sentence boundaries – commas are not substitutes for full stops!), then devote one read-through exclusively to this special area.
- ▶ When you are satisfied that you have made this important document as good as you possibly can, you are ready to make the final neat version. If, in the process, you make any small errors, don't simply cross them out and don't use correction fluid. Rewrite. When the last word is written, you can be

APPENDIX C PLANNING, DRAFTING AND PROOFREADING

satisfied that you have done your very best. Good luck!

Note: If you have a form to fill in, it is well worth making a few photocopies before you start. Practise what you want to say on the photocopies. Fit what you want to say carefully in the space available. Then complete the original form. It's well worth the extra time taken.
